

DAMLA DOĞAN

Data Scientist- Mimar Sinan University of Fine Arts

Address: İstanbul/Türkiye

Birth Date: 29.09.2002

Cell: +90(530) 475 64 30

Mail: doandamla@icloud.com

ABOUT ME

I am a newly graduated student with a strong interest in data analysis. So far, I have conducted time series analysis on 15 years of gold price data using Python, performed multivariate analyses on a popular 'car dataset' using SPSS and R Studio, completed a graduation project focused on fraud detection in motor insurance, and volunteered as a moderator at an international conference. I worked on a defense industry project focused on detecting jammer signals used in electronic warfare and separating them from composite received signals. During this process, I developed adaptive filter models in MATLAB Simulink and gained practical knowledge of adaptive filtering structures and the Least Mean Square (LMS) algorithm. I am eager to learn new technologies and have a disciplined working approach. My goal is to contribute to data-driven decision-making.

EDUCATION & CERTIFICATES

Equal Opportunity in Technology, Bahçeşehir University & Yapı Kredi & Cifal & UNITAR, 2025

Moderator, IFERP Academy, 2025

Panel Moderator, IFERP Academy, 2024

Career and Competency Meetings-1, Presidency of Defense Industries, 2024

Statistics, bachelor's degree, Mimar Sinan University of Fine Arts, 2022-2026

Akhisar Private College, Science, High School, 2020

EXPERIENCE

Internship- MATLAB Optimization	TRON ELEKTRONİK	Türkiye	16 June-25 July 2025
--	------------------------	----------------	-----------------------------

During my internship in the company's R&D department, I worked on a project focused on detecting jammer signals- commonly used in electronic warfare- and separating them from the received composite signal via writing codes on MATLAB. (This jammer cancellation process is also the technology used in noise-canceling headphones.)

Artificial Intelligence Specialization Program	Türkiye	11.2024 - 12.2024
---	----------------	--------------------------

Republic of Türkiye Ministry of Industry and Technology, course event

International Conference Moderator	İstanbul, Türkiye	17.11.2024 & 28.05.2025
---	--------------------------	------------------------------------

IFERP Academy & MAHSA University || Intercontinental Conference on Sustainable Agriculture and Climate Resilience – A management perspective (2024) & Intercontinental Conference on Business, Management, Educational Strategies and Technological Integration (2025)

Transshipment Center Employee	TRENDYOL	İstanbul, Türkiye	07.2023– 10.2023
--------------------------------------	-----------------	--------------------------	-------------------------

Trendyol E-Commerce Kiraz Center || In the feed, outbound, inbound, sorter areas

KEY SKILLS

Excel – dashboard, functions, pivot table

R Studio- SPSS- Data Analysis

Jupyter Notebook (Python)- Data Analysis (gold price changes etc.) **Communication & Team-oriented personality**

MATLAB & Simulink - VisualStudioCode – optimization of math functions

English- professional working proficiency

German (Deutsch)- A2, still learning

G.P.A / GANO = 3.58
